DETAILED ACTION

The following action is in response to the RCE filed for application 10/707,833 on March 20, 2006.

Allowable Subject Matter

Claims 1-27 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the internal hub transmission as claimed, and particularly including a one-way clutch member that communicates rotational force from the drive member to the clutch member when the drive member rotates in a first direction and allows the drive member to rotate relative to the clutch member when the drive member rotates in an opposite direction, and including the remaining structure of claim 1. The present invention also particularly includes a one-way clutch member disposed between one of a) the support and the drive member; and b) the support and the clutch member, and including the remaining structure of claim 2. The present invention also particularly includes a hub axle with an opening for receiving a control rod therein for controlling the clutch member, and including the remaining structure of claim 23.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
